

### Fund Overview

The Waypoint All Weather Alternative Fund is our core public equity portfolio that is designed to deliver superior risk-adjusted returns across market cycles. It is comprised of capital distributors and compounders with a volatility overlay to reduce the impact of market drawdowns.

The strategy provides institutional grade diversification via uncorrelated returns with low volatility & drawdown risk. Our portfolio management team has been managing the strategy for the past 10+ years in segregated accounts and now offer access through the fund with daily liquidity.

2024	-1.58%	4.33%	6.18%										9.02%

### Fund Commentary

The Waypoint All Weather Alternative Fund was +6.18% for the month (+9.02% YTD) vs. +4.14% (+6.62) for the S&P TSX Total Return Index.

Canadian equity markets have continued their strong performance in March led the energy and materials sectors. Bond yields began to rise as inflation expectations inflected upwards.

The portfolio was positively impacted by strength in two of its industrial positions (AirBoss of America +16.7% and Titanium Transportation Group +16.2%) and a core technology name (Evertz Microsystems +7.6%).

We have added protection to the portfolio following the market strength in Q1 and feel we are well positioned by having meaningful weights in our highest conviction names.

We thank you for your on-going support.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemptions, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Performance for a period of less than a year is non-annualized.
