

For the period ended June 30, 2023 (Unaudited)

Waypoint All Weather Alternative Fund

The interim Management Report of Fund Performance contains Financial Highlights but does not contain the complete interim financial statements of the Investment Fund. You may obtain a copy of the annual financial statements at your request, and at no cost, by writing to us at 1133 Yonge St, Suite 603, Toronto, Ontario, M4T 2Y7, Canada, by calling us collect at 416.960.7690 or by visiting our website www.waypointinvestmentpartners.com/funds or SEDAR at www.sedar.com. Securityholders may also contact us using one of these methods to request a copy of the investment fund's annual financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Forward-Looking Statements ("FLS")

The interim Management Report of Fund Performance may contain forward-looking statements. FLS means disclosure regarding possible events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action, and includes any future-oriented financial information ("FOFI") with respect to prospective results of operations, financial position or cash flows that is presented either as a forecast or a projection. FOFI is FLS about prospective results of operations, financial position or cash flows, based on assumptions about future economic conditions and courses of action.

FLS can be identified by the use of forward-looking terminology such as "may," "will," "should," "expect," "anticipate," "target," "project," "estimate," "intend," "continue," or "believe," or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of the Fund may differ materially from those reflected or contemplated in such forward-looking information and statements. Material risk factors that could affect actual results are identified under the heading "What are the Risks of Investing in the Fund?" in the Fund's Simplified Prospectus. Investors are also cautioned that FLS is based on a number of factors and assumptions, including a Fund's current plans, estimates, opinions and analyses made in light of its experience, current conditions and expectations of future developments, as well as other relevant factors. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

Financial Highlights - June 30, 2023

This interim Management Report of Fund Performance represents the portfolio management team's view of the significant factors and developments affecting the investment fund's performance and outlook for the period ended June 30, 2023. Every effort has been made to ensure the information contained in this Management Report of Fund Performance is accurate and complete, however, the investment fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Waypoint All Weather Alternative Fund's Declaration of Trust. In this report, "Manager" refers to Waypoint Investment Partners Inc., the Manager of the Fund. The "Fund" refers to the Waypoint All Weather Alternative Fund. In addition, "net asset value" or "NAV" refers to the value of the Fund as calculated for transaction purposes on which the discussion of Fund performance is based. All dollar figures are reported in Canadian dollars.

Investment Objective and Strategies

The Fund seeks to provide investors with attractive risk-adjusted investment returns over the long term by investing in, or obtaining exposure to, issuers that the Manager believes are not typically included in institutional investment mandates. The Fund may use alternative investment strategies including borrowing for investment purposes and the use of derivatives including options trading to seek to manage market volatility. The Fund's aggregate exposure to leverage through these strategies will not exceed three times its Net Asset Value ("NAV"), measured on a daily basis. The Fund is subject to certain standard investment restrictions and practices contained in securities legislation, including NI 81-102.

Risk

The risks associated with investing in the Fund remain as discussed in the simplified prospectus. The Fund is suitable for someone who is looking for a low to medium risk, diversified portfolio of alternative investment strategies to hold as part of their balanced portfolio and has a medium to longer term investment horizon.

For the period ended June 30, 2023, there were no changes affecting the overall level of risk associated with an investment in the Fund; therefore, the overall level of Fund risk and investor risk tolerance remains as stated in the simplified prospectus.

Terrorism, war, military confrontations and related geopolitical events (and their aftermath) can lead to increased short-term market volatility and may have adverse long-term effects on the Canadian, U.S., and world economies and markets generally. Likewise, natural and environmental disasters, such as, for example, earthquakes, fires, floods, hurricanes, tsunamis and weather-related phenomena generally, as well as wide-spread disease and virus epidemics, can be highly disruptive to economies and markets into the medium term, adversely affecting individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors impacting the value of the Fund's investments.

Financial Highlights - June 30, 2023

Results of Operations

The Fund's benchmark is the S&P/TSX Composite Total Return Index. It is important to note that the NAV of the Fund reflects the effect of fees and expenses for professional management, while the benchmark does not have such costs. As compared to the benchmark index, the Fund was overweight exposure to Real Estate equities while underweight exposure to Financial, Energy and Material equities.

The net asset value of the Fund was \$47,572,835 on June 30, 2023, reflecting the capital flows during the period and the changes in NAV due to valuations of the Fund's investments. The Fund had \$nil of distributions for the period ended June 30, 2023.

The Canadian Equity market experienced a positive first half of 2023 with the S&P/TSX Composite Total Return up 5.76% for the period. The combination of better-than-expected economic data and uneventful earnings out of Q1 provided support for positive equity performance. The economy has appeared to remain resilient as central banks continued their hiking cycle in reaction to stubbornly high inflation. On a total return basis, all sectors had positive returns over the first six months except for energy. The information technology sector led index performance up over 47% in the first half.

The Canadian Equity market experienced a positive first half of 2023 with the S&P/TSX Composite Total Return up 5.76% for the period. The combination of better-than-expected economic data and uneventful earnings out of Q1 provided support for positive equity performance. The economy has appeared to remain resilient as central banks continued their hiking cycle in reaction to stubbornly high inflation. On a total return basis, all sectors had positive returns over the first six months except for energy. The information technology sector led index performance up over 47% in the first half.

Fund positioning for 2023 was largely unchanged. The Manager has continued to position the Fund to focus on the non-resource segment of the Canadian market; more specifically with an aim to own businesses with a high level of insider ownership, prudently managed balance sheets and a focus on the distribution of cash flow either through dividends or share buybacks. The Fund's exposure to Real Estate and other interest rate sensitives was further reduced from the previous period. The Manager increased the Fund's exposure to large capitalization names in the consumer staples and energy sectors.

As prescribed by NI 81-102, the aggregate gross exposure of the Fund, to be calculated as the sum of the following, must not exceed three times the Fund's net asset value: (i) the amount of cash borrowed for investment purposes; (ii) the aggregate market value of physical short sales on equities, fixed income securities or other portfolio assets; and (iii) the aggregate notional value of the Fund's specified derivatives positions excluding any specified derivatives used for hedging purposes.

During the period ended June 30, 2023, the Fund's lowest and highest aggregate gross exposure was 0% (December 31, 2022 - 23%) and 27% (December 31, 2022 - 278%) of the Fund's NAV respectively. As at June 30, 2023, the Fund's aggregate gross exposure was 1.1% of the Fund's NAV. The primary source of leverage was written options. The low and high end of the range are as a result of our investing activities, and timing of subscriptions and/or redemptions. The Fund's strategy is outlined in the simplified prospectus.

The Manager monitors, on a daily basis, that the Fund's aggregate gross exposure is less than three times the Fund's net asset value.

Recent Developments

The Fund continues to be positioned to take advantage of volatility as higher interest rates continue to percolate through the economy. The Manager has concentrated the portfolio in the highest conviction equity holdings and continues to carry a net short position with the put option overlay.

Financial Highlights - June 30, 2023

Related Party Transactions

Management fees:

The Fund pays the Manager a monthly management fee for providing its services to the Fund. Redeemable units of the Fund, other than Series I units and Series I -OM, are charged annual management fees equal to the following percentages of the Series NAV of the said Series of the Fund, calculated and accrued on each Valuation Date and payable monthly:

Series A	1.75%
Series A – OM	1.00%
Series A (US)	1.75%
Series F	1.00%
Series F – OM	1.00%
Series F (US)	1.00%
Series W – OM	Nil

Series I and Series I - OM Negotiated by the investor and paid directly by the investor.

The Fund paid dealers compensation from the total management fees received in respect of the Fund. This includes amounts to dealers for trailing commissions, for Series A and Series A (US), which totalled 39% of the management fee for these series. The remaining 61% of the management fee was for general administration and portfolio management of the fund. For all other series, 100% of the management fee was for general administration and portfolio management of the fund. For the period ended June 30, 2023, management fees paid by the Fund totalled \$298,977.

Performance fees:

The Manager receives performance fees from the Fund equal to 10% of any positive net returns (before sales tax) in excess of 10% for each calendar year attributable to each Series A - OM, Series F - OM and Series F (US) - OM units. The performance fees are accrued daily on each Valuation Date and are payable monthly.

The performance fee hurdle resets at the start of each calendar year. Performance fees are subject to applicable taxes, including QST, GST or HST. In the case of Series I units and Series I - OM units, performance fees, if any, are negotiated with each unitholder and paid directly to the Manager. No performance fee is charged to the Fund in respect of Series W - OM units.

The Manager receives a performance fee in respect of Series A and Series F units of the Fund, which is calculated and accrued for each such Series each business day during the relevant Performance Fee Determination Period (as defined below). The Fund will pay the Manager a performance fee plus applicable taxes for each Performance Fee Determination Period equal to 15% of the Net Profit (as defined below) of each of the applicable Series of units, subject to the High-Water Mark (as defined below).

Financial Highlights - June 30, 2023

Related Party Transactions

Performance fees:

The "Performance Fee Determination Period" means (i) each calendar quarter for those investors that remain in the Fund at the end of the calendar quarter and (ii) the period from the beginning of a calendar quarter until the redemption date for those investors that redeem prior to the end of the calendar quarter. "Net Profit" means, in respect of each Series of units of the Fund for any Performance Fee Determination Period, the amount calculated by deducting the relevant Series NAV per unit on the first business day of that Performance Fee Determination Period from the Series NAV per unit on the last business day of that Performance Fee Determination Period and multiplying the resulting amount by the total number of units of such Series outstanding at the close of business on the last business day in that Performance Fee Determination Period. "High-water Mark" means, in respect of each Series of units of the Fund, the highest Series NAV per unit in respect of which a performance fee has been previously paid for that Series, or the initial offering price of the units of such Series if no performance fee has yet been paid in respect of such Series.

No performance fee shall be paid in respect of a Series unless the Series NAV per unit exceeds the High-water Mark for that Series and, in such circumstances, a performance fee shall only be paid on that portion of the Net Profit that exceeds the High-Water Mark. The Manager may make such adjustments to the NAV and/or the calculation of the performance fee as may be determined by the Manager to be necessary to account for the payment of any distributions on units, any unit splits or consolidations or any other event or matter that would, in the opinion of the Manager, impact upon the calculation of the performance fees.

During the period ended June 30, 2023, performance fees paid by the Fund were \$nil.

Notes

- (1) Series A US and Series F US are presented in USD.
- (2) This information is derived from the Fund's unaudited interim financial statements for June 30, 2023, and audited financial statements for December 31, 2022, December 31, 2021, and December 31, 2020, and is not a reconciliation of beginning and ending net assets per unit.
- (3) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/(decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- (4) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.
- (5) This information is provided as at June 30, 2023, December 31, 2022, December 31, 2021, and December 31, 2020.
- (6) Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average NAV during the period. During the period ended June 30, 2023, the Manager absorbed \$nil (December 31, 2022 \$nil, December 31, 2021 \$nil and December 31, 2020 \$18,871) in expenses that would have otherwise been charged to the Fund.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the period. Included in the trading expense ratio are any forward fees.
- (8) The Fund's portfolio turnover rate indicates how actively the Fund's advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in the period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

WAYPOINT ALL WEATHER ALTERNATIVE FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights - June 30, 2023

The benchmark for the Fund is the S&P/TSX Composite Total Return Index. The S&P/TSX Composite Total Return Index is the headline index for the Canadian Equity market. It is the broadest in the S&P/TSX family and is the basis for multiple sub-indices including but not limited to Equity Indices, Income Trust Indices, Capped Indices, GICS Indices and Market Cap based Indices.1

1 "S&P/TSX Composite Total Return Index." S&P Dow Jones Indices by S&P Global. Web. June 30, 2023.

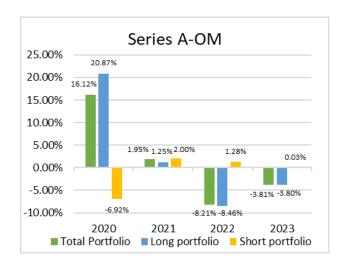

Past Performance

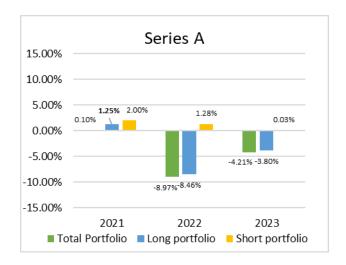

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each period, or on the series inception date, as applicable, would have increased or decreased by the last day of the period presented. The following information shown assumes that all distributions made by the Fund in the period shown were reinvested in additional securities of the investment fund and does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Period-by-period returns:

The following bar charts show the Fund's annual performance for each of the series shown, as applicable, and illustrates how the Fund's performance has changed from period to period. The bar chart shows, in percentage terms, how much an investment in Series A-OM, Series F-OM, Series F, Series I, Series A (US), Series F (US) and Series W-OM units, respectively, made on the first day of each financial year would have grown or decreased by the last day of the financial year. As required under applicable securities regulation, the return of the Fund's long and short portfolio positions are shown for each series in addition to the overall total return for each such series.

The annual returns for the year ended December 31, 2020, December 31, 2021, December 31, 2022 and period ended June 30, 2023, are as follows:
