

Management Report of Fund Performance

For the period ended
June 30, 2022 (Unaudited)

Waypoint All Weather Alternative Fund

The interim Management Report of Fund Performance contains Financial Highlights but does not contain the complete interim financial statements of the Investment Fund. You may obtain a copy of the annual financial statements at your request, and at no cost, by writing to us at 1133 Yonge St, Suite 603, Toronto, Ontario, M4T 2Y7, Canada, by calling us collect at 416.960.7690 or by visiting our website www.waypointinvestmentpartners.com/funds or SEDAR at www.sedar.com. Securityholders may also contact us using one of these methods to request a copy of the investment fund's annual financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

Forward-Looking Statements (“FLS”)

The interim Management Report of Fund Performance may contain forward-looking statements. FLS means disclosure regarding possible events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action, and includes any future-oriented financial information (“FOFI”) with respect to prospective results of operations, financial position or cash flows that is presented either as a forecast or a projection. FOFI is FLS about prospective results of operations, financial position or cash flows, based on assumptions about future economic conditions and courses of action.

FLS can be identified by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “target,” “project,” “estimate,” “intend,” “continue,” or “believe,” or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of the Fund may differ materially from those reflected or contemplated in such forward-looking information and statements. Material risk factors that could affect actual results are identified under the heading “What are the Risks of Investing in the Fund?” in the Fund’s Simplified Prospectus. Investors are also cautioned that FLS is based on a number of factors and assumptions, including a Fund’s current plans, estimates, opinions and analyses made in light of its experience, current conditions and expectations of future developments, as well as other relevant factors. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

WAYPOINT ALL WEATHER ALTERNATIVE FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2022

This interim Management Report of Fund Performance represents the portfolio management team's view of the significant factors and developments affecting the investment fund's performance and outlook for the period ended June 30, 2022. Every effort has been made to ensure the information contained in this Management Report of Fund Performance is accurate and complete, however, the investment fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Waypoint All Weather Alternative Fund's Declaration of Trust. In this report, "Manager" refers to Waypoint Investment Partners Inc., the Manager of the Fund. The "Fund" refers to the Waypoint All Weather Alternative Fund. In addition, "net asset value" or "NAV" refers to the value of the Fund as calculated for transaction purposes on which the discussion of Fund performance is based. All dollar figures are reported in Canadian dollars.

Investment Objective and Strategies

The Fund seeks to provide investors with attractive risk-adjusted investment returns over the long term by investing in, or obtaining exposure to, issuers that the Manager believes are not typically included in institutional investment mandates. The Fund may use alternative investment strategies including borrowing for investment purposes and the use of derivatives including options trading to seek to manage market volatility. The Fund's aggregate exposure to leverage through these strategies will not exceed three times its Net Asset Value ("NAV"), measured on a daily basis. The Fund is subject to certain standard investment restrictions and practices contained in securities legislation, including NI 81-102.

Risk

The risks associated with investing in the Fund remain as discussed in the simplified prospectus. The Fund is suitable for someone who is looking for a low to medium risk, diversified portfolio of alternative investment strategies to hold as part of their balanced portfolio and has a medium to longer term investment horizon.

For the period ended June 30, 2022, there were no changes affecting the overall level of risk associated with an investment in the Fund; therefore, the overall level of Fund risk and investor risk tolerance remains as stated in the Prospectus.

The financial information contained within this report is based on and includes estimates and assumptions made by management that affect the reported amount of assets, liabilities, income and expenses during the reporting period. The COVID-19 virus is a fading risk to the global recovery and the extent of the continuing impacts from the COVID-19 outbreak on the Fund's operations and performance remains uncertain and difficult to predict. The ultimate economic fallout from the on-going pandemic, and the long-term impact on economies, markets, industries and individual companies remain uncertain. The extent of the impact to the financial performance and the operations of the Fund will depend on future developments, which are highly uncertain and cannot be predicted.

The conflict between Russia and Ukraine that started on February 24, 2022, could have an impact on the Fund's net asset value. Although the Fund does not have any direct investments in these countries involved in the conflict, fluctuations in the Fund's net asset value could arise from general market fluctuations caused by the instability of the conflict, its impact on global economy and general investor sentiment and confidence.

WAYPOINT ALL WEATHER ALTERNATIVE FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2022

Results of Operations

The Fund's benchmark is the S&P/TSX Composite Total Return Index. It is important to note that the NAV of the Fund reflects the effect of fees and expenses for professional management, while the benchmark does not have such costs. As compared to the benchmark index, the Fund was overweight exposure to Real Estate equities while underweight exposure to Financial, Energy and Material equities.

The net asset value of the Fund was \$98,145,327 on June 30, 2022, reflecting the capital flows during the period and the changes in NAV due to valuations of the Fund's investments. The Fund had no distributions for the period ended June 30, 2022.

The Canadian Equity market was extremely volatile in the first half of 2022 with the S&P/TSX Composite Total Return down 9.8% for the period. The year began with renewed concern of another pandemic related slowdown due to the rapid spread of the Covid-19 Omicron variant, however, it was proven to be less lethal leading to optimism of a reopening. With inflation running hot and the labour market in good shape, market participants began to discount a gradual tightening of financial conditions. This negatively affected the valuations for long duration technology companies in which the Fund has limited exposure. The increased tension and the eventual invasion of Ukraine by Russia led to a rapid rise in energy prices and the continued outperformance of the Energy sector. Persistently high inflation, a strong labour market and robust corporate earnings have led to more hawkish messaging by monetary authorities as they look to restore price stability. This led to significant downside volatility in the broader index during the month of June.

For the first six months of the year, all sectors of the TSX Total Return Index were in the red except for Energy which was up over 20%. The Financial, Consumer Discretionary, Real Estate, Health Care, and Technology sectors were all down over 10% with the latter two both down over 50%.

Fund positioning for the first half of 2022 was largely unchanged. The Manager has continued to position the Fund to focus on the non-resource segment of the Canadian market; more specifically with an aim to own businesses with a high level of insider ownership, prudently managed balance sheets and a focus on the distribution of cash flow either through dividends or share buybacks. The Fund's exposure to Real Estate and Financials was reduced from the previous period. A lack of exposure to the Energy sector negatively affected the Fund performance relative to the TSX Total Return Index. This was more than offset by the Fund's long volatility positions, which acted as a significant ballast to drawdowns in the Fund's equity positions.

As prescribed by NI 81-102, the aggregate gross exposure of the Fund, to be calculated as the sum of the following, must not exceed three times the Fund's net asset value: (i) the amount of cash borrowed for investment purposes; (ii) the aggregate market value of physical short sales on equities, fixed income securities or other portfolio assets; and (iii) the aggregate notional value of the Fund's specified derivatives positions excluding any specified derivatives used for hedging purposes.

During the period ended June 30, 2022, the Fund's lowest and highest aggregate gross exposure was 89.9% (December 31, 2021 - 93%) and 278.4% (December 31, 2021 - 166%) of the Fund's NAV respectively. As at June 30, 2022, the Fund's aggregate gross exposure was 161% of the Fund's NAV. The primary source of leverage was written options. The low and high end of the range are as a result of our investing activities, and timing of subscriptions and/or redemptions. The Fund's strategy is outlined in the simplified prospectus.

The Manager monitors, on a daily basis, that the Fund's aggregate gross exposure is less than three times the Fund's net asset value.

Recent Developments

The Fund continues to be positioned to take advantage of volatility as policy normalization from fiscal and monetary authorities continues. More recently, the Fund has increased exposure to large capitalization Canadian equities with high dividend yields. The Manager has taken advantage of elevated levels of volatility by over-writing near term options on the large capitalization names held in the Fund to earn volatility premium in addition to the dividend yield.

WAYPOINT ALL WEATHER ALTERNATIVE FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2022

Related Party Transactions

Management fees:

The Fund pays the Manager a monthly management fee for providing its services to the Fund. Redeemable units of the Fund, other than Series I units and Series I -OM, are charged annual management fees equal to the following percentages of the Series NAV of the said Series of the Fund, calculated and accrued on each Valuation Date and payable monthly:

Series A	1.75%
Series A – OM	1.00%
Series A (US)	1.75%
Series F	1.00%
Series F – OM	1.00%
Series F (US)	1.00%
Series W – OM	Nil
Series I and Series I - OM Negotiated by the investor and paid directly by the investor.	

The Fund paid dealers compensation from the total management fees received in respect of the Fund. This includes amounts to dealers for trailing commissions, for Series A and Series A (US), which totalled 43% of the management fee for these series. The remaining 57% of the management fee was for general administration and portfolio management of the fund. For all other series, 100% of the management fee was for general administration and portfolio management of the fund. For the period ended June 30, 2022, management fees paid by the Fund totalled \$607,295.

Performance fees:

The Manager receives performance fees from the Fund equal to 10% of any positive net returns (before sales tax) in excess of 10% for each calendar period attributable to each Series A - OM, Series F - OM and Series F (US) - OM units. The performance fees are accrued daily on each Valuation Date and are payable monthly.

The performance fee hurdle resets at the start of each calendar period. Performance fees are subject to applicable taxes, including QST, GST or HST. In the case of Series I units and Series I - OM units, performance fees, if any, are negotiated with each unitholder and paid directly to the Manager. No performance fee is charged to the Fund in respect of Series W - OM units.

The Manager receives a performance fee in respect of Series A and Series F units of the Fund, which is calculated and accrued for each such Series each business day during the relevant Performance Fee Determination Period (as defined below). The Fund will pay the Manager a performance fee plus applicable taxes for each Performance Fee Determination Period equal to 15% of the Net Profit (as defined below) of each of the applicable Series of units, subject to the High-Water Mark (as defined below).

WAYPOINT ALL WEATHER ALTERNATIVE FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Financial Highlights – June 30, 2022

Related Party Transactions

Performance fees:

The “Performance Fee Determination Period” means (i) each calendar quarter for those investors that remain in the Fund at the end of the calendar quarter and (ii) the period from the beginning of a calendar quarter until the redemption date for those investors that redeem prior to the end of the calendar quarter. “Net Profit” means, in respect of each Series of units of the Fund for any Performance Fee Determination Period, the amount calculated by deducting the relevant Series NAV per unit on the first business day of that Performance Fee Determination Period from the Series NAV per unit on the last business day of that Performance Fee Determination Period and multiplying the resulting amount by the total number of units of such Series outstanding at the close of business on the last business day in that Performance Fee Determination Period. “High-water Mark” means, in respect of each Series of units of the Fund, the highest Series NAV per unit in respect of which a performance fee has been previously paid for that Series, or the initial offering price of the units of such Series if no performance fee has yet been paid in respect of such Series.

No performance fee shall be paid in respect of a Series unless the Series NAV per unit exceeds the High-water Mark for that Series and, in such circumstances, a performance fee shall only be paid on that portion of the Net Profit that exceeds the High-Water Mark. The Manager may make such adjustments to the NAV and/or the calculation of the performance fee as may be determined by the Manager to be necessary to account for the payment of any distributions on units, any unit splits or consolidations or any other event or matter that would, in the opinion of the Manager, impact upon the calculation of the performance fees.

During the period ended June 30, 2022, performance fees paid by the Fund were \$nil .

Notes:

- (1) Series A – US and Series F – US are presented in USD.
- (2) This information is derived from the Fund's unaudited interim financial statements for June 30, 2022, audited annual financial statements for December 31, 2021 and December 31, 2020, and is not a reconciliation of beginning and ending net assets per unit.
- (3) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/(decrease) from operations is based on the weighted average number of units outstanding over the financial period.
- (4) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.
- (5) This information is provided as at June 30, 2022, December 31, 2021 and December 31, 2020.
- (6) Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average NAV during the period. During the period ended June 30, 2022, the Manager absorbed \$nil (December 31, 2021 - \$nil and December 31, 2020 - \$18,871) in expenses that would have otherwise been charged to the Fund.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the period. Included in the trading expense ratio are any forward fees.
- (8) The Fund's portfolio turnover rate indicates how actively the Fund's advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in the period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Past Performance

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each period, or on the series inception date, as applicable, would have increased or decreased by the last day of the period presented. The following information shown assumes that all distributions made by the Fund in the period shown were reinvested in additional securities of the investment fund and does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Period-by-period returns:

The following bar charts show the Fund's annual performance for each of the series shown, as applicable, and illustrates how the Fund's performance has changed from period to period. The bar chart shows, in percentage terms, how much an investment in Series A-OM, Series A, Series F-OM, Series F, Series I, Series A (US), Series F (US) and Series W-OM units, respectively, made on the first day of each financial year would have grown or decreased by the last day of the financial year. As required under applicable securities regulation, the return of the Fund's long and short portfolio positions are shown for each series in addition to the overall total return for each series.

The annual returns for the year ended December 31, 2021, and period ended June 30 2022, are as follows:
